

CURRICULUM VITAE, FARZIN AHMADI

Department of Health Sciences, Towson University
8000 York Road, Towson, MD 21252
E-mails: fahmadi@towson.edu—farzin.ahmadi1@gmail.com
<https://farzinahmadi.github.io>

RESEARCH SUMMARY

My research develops AI-driven decision support systems for complex operational problems, with applications in healthcare management and public policy. I combine methods from operations research, machine learning, and optimization to create tools that improve managerial decision-making under uncertainty. My work has been published in leading medical journals (JAMA, Lancet) and is under review at top operations management venues (Management Science, INFORMS Journal of Optimization).

EMPLOYMENT **Towson University, College of Health Professions August 2025 - Present** Assistant Professor of Healthcare Management

- Research focus: Operations analytics, AI/ML for healthcare decision systems
- Teaching: Healthcare systems, health information management
- Courtesy and affiliate appointments: Johns Hopkins Center for Systems Science and Engineering; Johns Hopkins Data Science and AI Institute (DSAI); Affiliate Faculty, Department of Health Policy and Management, Johns Hopkins Bloomberg School of Public Health (2026)

PREVIOUS AP- **Johns Hopkins University March 2025 - September 2025** POINTMENTS Postdoctoral Fellow at the Center for Systems Science & Engineering

Massachusetts Institute of Technology June 2024 - December 2024
Ph.D. Researcher at Computer Science & Artificial Intelligence Laboratory (CSAIL)

EDUCATION **Johns Hopkins University, Baltimore, MD 2019 - 2025** Ph.D. in Civil and Systems engineering

- Committee: Todd McNutt (chair), Kimia Ghobadi (advisor), Tinglong Dai, Yury Dvorkin, Takeru Igusa, Susu Xu, Ritu Agarwal

M.S. in Systems engineering

Sharif University of Technology, Tehran, Iran 2016 - 2018
M.Eng. in Transportation Engineering

Sharif University of Technology, Tehran, Iran 2012 - 2016
B.Sc. in Civil Engineering

RESEARCH INTERESTS

- Operations Management and Analytics
- AI and Machine Learning for Decision-Making in Healthcare
- Data-Driven Operations and Resource Allocation
- Inverse Optimization and Preference Learning
- Healthcare Technology Assessment and Implementation
- Business Analytics for Policy and Management

PUBLICATIONS Papers published/in press in Refereed Journals

1. Tracking County-Level Measles Cases in the US,
JAMA (2025)
with Ensheng Dong, Lauren Gardner
2. Evolving Patterns of COVID-19 Mortality in US Counties: A Longitudinal Study of Healthcare, Socioeconomic, and Vaccination Associations,
Plos Global Health (2024)
with Fardin Ganjkanloo, Ensheng Dong, Felix Parker, Lauren Gardner, and Kimia Ghobadi
3. The Johns Hopkins University Center for Systems Science and Engineering COVID-19 Dashboard: data collection process, challenges faced, and lessons learned,
The Lancet Infectious Diseases (2022)
with Ensheng Dong, Jeremy Ratcliff, Tamara D Goyea, Aaron Katz, Ryan Lau, Timothy K Ng, Beatrice Garcia, Evan Bolt, Sarah Prata, David Zhang, Reina C Murray, Mara R Blake, Hongru Du, Fardin Ganjkanloo, Jason Williams, Sayeed Choudhury, Lauren M Gardner

Papers Under Review/Preprints

1. Recommendations as Designed Experiments: Active Inverse Optimization for Identifiable Preference Learning under Hard Constraints,
Under Review: NeurIPS 2026 Second Workshop on MLxOR (Mathematical Foundations and Operational Integration of ML for Uncertainty-Aware Decision-Making), Atlanta, GA, December 2026
with Kimia Ghobadi
2. School-Level MMR Coverage and 2025 Texas Measles Outbreaks,
Under Review (Research Letter): JAMA Pediatrics
3. Solution Prediction Dominates Parameter Prediction Under Generic Non-Identifiability: Connecting Inverse Optimization and Predict-then-Optimize,
Under Review: European Journal of Operations Research
with Fardin Ganjkanloo
4. A Predictive-to-Robust Framework for Rolling-Horizon Operating Room Scheduling with Downstream Capacity Management, *Under Review: Computers & Industrial Engineering*
with Jing Liu, Diego A. Martinez, Shengwei Zhang, Enzo Zavala, Rudy Geissbuhler, Kimia Ghobadi
5. Similarity-Guided Inverse Optimization for Personalized Dietary Recommendations, *Under Review: IEEE Journal of Biomedical and Health Informatics*
with Felix Parker, Layne C. Price, Raviteja Anantha, Valerie K. Sullivan, Lawrence J. Appel, and Kimia Ghobadi
6. Recovering Food Choice Preferences via Inverse Reinforcement Learning, *Under Review: IEEE Journal of Biomedical and Health Informatics*
with Layne C. Price, Raviteja Anantha, Felix Parker, and Kimia Ghobadi
7. From Non-Identifiability to Goal-Integrated Decision-Making in Parametric Inverse Optimization, *Under Review: Operations Research*
with Fardin Ganjkanloo and Kimia Ghobadi
8. You Are What You Eat: A Preference-Aware Inverse Optimization Approach, *Under Review: INFORMS Journal of Optimization*
with Tinglong Dai and Kimia Ghobadi
9. Improving Observed Decisions for Partially Known Optimization Problems Through Inverse Optimization with Application to Radiation Therapy Treatment Planning, *Under Review: European Journal of Operational Research*
with Todd R. McNutt and Kimia Ghobadi

10. Optimal resource and demand redistribution for healthcare systems under stress from COVID-19, *Preprint (2020)*
with Felix Parker, Hamilton Sawczuk, Fardin Ganjkanloo, Kimia Ghobadi
11. An open-source dataset on dietary behaviors and dash eating plan optimization constraints, *Preprint (2020)*
with Fardin Ganjkanloo and Kimia Ghobadi

Non-Peer-Reviewed Publications

1. **Near-Real Time Measles Surveillance: How Analytics Can Help Transform Public Health Response**,
OR/MS Today (2025) , *Print and Online*
2. **Detecting and Mitigating Disparities in Preventive Care and Healthcare Delivery: The Role of Artificial Intelligence and Operations Research**,
OR/MS Today (2023) , *Print and Online*
with Fardin Ganjkanloo
3. **Monkeypox: Another Public Health Crisis**,
OR/MS Today (2022), *Print and Online*, *Selected and featured on the cover*
with Kimia Ghobadi

Extended Abstracts

1. Learning DVH Criteria in Radiation Therapy Treatment Planning,
MEDICAL PHYSICS (2022)
with Todd R. McNutt and Kimia Ghobadi

Articles

1. **Navigating the Use of ChatGPT in Education and Research: Impacts and Guidelines**,
OR/MS Tomorrow (Summer 2023)
with Saeedeh Dehghani Firoozabadi
2. **OR/MS Tomorrow Industry Series: OR/MS in Finance**,
OR/MS Tomorrow (Summer 2023)
with Frederick “Forrest” Miller
3. **A Comprehensive Guide on INFORMS Student Chapters**,
OR/MS Tomorrow (Winter 2022)
with Gulden Busra Karkili
4. Coverage of INFORMS Annual Meeting 2022 Keynote Speech, **From the Battlefield to the Gig Economy: How Hybrid Optimization can Guide Decision Making in Highly Dynamic and Unpredictable Settings**,
OR/MS Today (2022)
5. Coverage of INFORMS Annual Meeting 2022 Keynote Speech, **Parallel Computing in Operations Research**,
OR/MS Today (2022)

FUNDED RESEARCH PROJECTS

1. **Development of AI-Powered Decision-Support System for Healthy Eating**,
AI2AI Johns Hopkins University, 2026, \$375,000 (Direct Costs)
Role: Co-Investigator (PI: K. Ghobadi, Co-PI: L. Appel)
Developing inverse optimization and machine learning methods for personalized dietary recommendations

WORKING PAPERS

1. Where the Money Goes, and Where the Need Is: A Needs-Based Capitation Analysis of Medicare Hospital Spending Across Maryland's 24 Jurisdictions, *In Preparation*
Sole-authored. Builds a needs-based counterfactual to Maryland's historically anchored global hospital budgets, identifying \$172M of reallocation within a \$3.50B envelope, and develops a method for distinguishing under-service from efficiency using published CMS data.
2. Closed-Loop OR Scheduling Under Operational Uncertainty, *In Preparation*
with Jing Liu, Shengwei Zhang, Diego A. Martínez, Enzo Zavala, Rudy Geissbuhler, and Kimia Ghobadi
3. Non-Asymptotic Bounds for Parameter Estimation in Inverse Optimization Using Concentration Inequalities, *In Preparation*
with Fardin Ganjkanloo, Manya Ghobadi, and Kimia Ghobadi
4. Maximum Likelihood Estimation and Confidence Regions for Inverse Convex Optimization, *In Preparation*
with Fardin Ganjkanloo and Kimia Ghobadi
5. Automated Radiation Therapy Treatment Improvement Through Optimization Models, *In Preparation* with Todd McNutt and Kimia Ghobadi
6. Supervised Inverse Optimization, *In Preparation* with Felix Parker, Fardin Ganjkanloo and Kimia Ghobadi
7. Smart Surgical Scheduling Tool: An Optimization Model with Integrated Peri-operative Information Input, *In Preparation* with Diego Martinez, Jing liu, and Kimia Ghobadi

HONORS and AWARDS

- Selected for HICSS 59 Junior Faculty Consortium, Hawaii International Conference on System Sciences, 2026
- Teaching Assistant Award for excellence in teaching and dedication to engineering education, Johns Hopkins University, 2022
- Top 20 percent in Civil Engineering, class of 2012, Sharif University of Technology
- Straight Invitee to Participate in the M.Sc. program of Highway and Pavement Engineering, Department of Civil Engineering, Sharif University of Technology (2016)
- Honored as a "Brilliant Talented Student" by Iran's National Elites Foundation (2014)
- Ranked 221st (top 0.085%) among more than 260000 participants of National University Entrance Exam, Mathematics and Physics (2012)
- Ranked 171st (top 1.31%) among more than 13000 participants of National University Entrance Exam, Foreign Languages (2012)

CONFERENCE ORGANIZATION

1. Mini-track Chair, AI-DRIVEN HEALTHCARE: BRIDGING SYSTEMS SCIENCE AND CLINICAL PRACTICE MINITRACK, *Hawaii International Conference on System Sciences (HICSS) 60* , Hawaii Island, HI, USA, January 2027 (Upcoming) .
2. Session Chair, AI and Analytics for Public Health Surveillance and Emergency Response, *INFORMS Annual Meeting 2026* , San Francisco, CA, USA, November 2026 (Upcoming) .

3. Session Chair, Integrated AI and LLMs in Healthcare Modeling, *INFORMS Healthcare Conference, Raleigh, NC, USA, July 2026 (Upcoming)* .
With Kimia Ghobadi
4. Session Chair, Data-driven Inverse Optimization, *INFORMS Healthcare Conference, Raleigh, NC, USA, July 2026 (Upcoming)*.
With Kimia Ghobadi
5. Mini-track Chair, AI-DRIVEN HEALTHCARE: BRIDGING SYSTEMS SCIENCE AND CLINICAL PRACTICE MINITRACK, *Hawaii International Conference on System Sciences (HICSS) 59 , Maui, HI, USA, January 2026* .
6. Session Organizer, *Production and Operations Management Society (POMS) 32nd Annual POMS-Conference, Orlando, FL, USA, May 2023* .
With Kimia Ghobadi and Fardin Ganjkanloo

**INVITED
TALKS and
PRESENTATIONS**

Conferences

1. *HICSS-60 Symposium: Strategic Foresight for Socio-Technical Ecosystems: Exploring Future Pathways for Digital Health, Hawaii International Conference on System Sciences (HICSS) 60, HI, USA, January 2027 (Upcoming)*.
Title: Real-Time Public Health Surveillance as a Socio-Technical Ecosystem
2. *INFORMS Annual Meeting 2026, San Francisco, CA, USA, November 2026* .
Title: Similarity-Guided Inverse Optimization for Personalized Dietary Recommendations (Upcoming)
3. *INFORMS Healthcare Conference, Raleigh, NC, USA, July 2026*.
Title: Non-Asymptotic Guarantees for Inverse Optimization: A Finite-Sample Framework via Concentration Inequalities (Upcoming)
4. *INFORMS Healthcare Conference, Raleigh, NC, USA, July 2026*.
Title: Robust Surgery and Bed Scheduling Under Coupled Duration and LOS Uncertainty (Upcoming)
5. *INFORMS Healthcare Conference, Raleigh, NC, USA, July 2026*.
Title: Similarity-Guided Inverse Optimization for Personalized Dietary Recommendations via Food Swapping (Upcoming)
6. *INFORMS Healthcare Conference, Raleigh, NC, USA, July 2026*.
Title: Inverse Optimization for Learning Noisy Decisions (presented by K. Ghobadi) (Upcoming)
7. *INFORMS Healthcare Conference, Raleigh, NC, USA, July 2026*.
Title: Maximum Likelihood Estimation and Confidence Regions for Inverse Optimization (presented by F. Ganjkanloo) (Upcoming)
8. *Manufacturing and Service Operations Management (MSOM) Conference, Harvard Business School, Boston, MA, USA, July 2026*.
Title: Non-identifiability and Statistical Inference in Inverse Optimization (presented by K. Ghobadi)
9. *Manufacturing and Service Operations Management (MSOM) Conference, Poster Presentation, Harvard Business School, Boston, MA, USA, July 2026*.
Title: From Prediction to Protection in Surgery Scheduling (presented by K. Ghobadi)
10. *2026 Conference on Health IT and Analytics (CHITA), Washington D.C., USA, May 2026*.
Title: Real-Time County-Level Measles Surveillance and AI-Augmented Monitoring During the 2025 U.S. Outbreak: A Deployed System in Action
11. *HICSS-59 Symposium: Socio-Technical Ecosystems for Future Digital Health, Hawaii International Conference on System Sciences (HICSS) 59, Maui, HI, USA, January 2026*.
Title: Real-Time Public Health Surveillance as a Socio-Technical Ecosystem

12. *Department of Health Sciences, Towson University, MD, USA, January 2025.*
Title: Inverse Optimization for Personalized Nutritional Guidance: Aligning Preferences with Nutritional Needs
13. *Department of Medicine and Whiting School of Engineering Research Retreat, Poster Presentation, Baltimore, MD, USA, February 2024.*
Title: Inverse Optimization for Personalized Nutritional Guidance: Aligning Preferences with Nutritional Needs
14. *Production and Operations Management Society (POMS) 32nd Annual POMS-Conference, Orlando, FL, USA, May 2023.*
Title: Diet recommendations using hybrid inverse optimization methods
15. *Production and Operations Management Society (POMS) 32nd Annual POMS-Conference, Orlando, FL, USA, May 2023.*
Title: Inverse Learning: An Inverse Optimization Method for Learning Optimal Decisions
16. *The Conference on Health IT and Analytics (CHITA), Washington D.C., USA, May 2023.*
Title: Hybrid Artificial intelligence and Inverse Learning for Diet Recommendation
17. *Department of Medicine and Whiting School of Engineering Research Retreat, Poster Presentation, Baltimore, MD, USA, February 2023.*
Title: Inverse Learning to Improve Radiation Therapy Treatment Plans
18. *INFORMS Annual Meeting, Indianapolis, IN, USA, October 2022.*
Title: A Data-driven Framework to Recommend Improved Radiation Therapy Treatment Plans
19. *AAPM Annual Meeting, Poster Presentation, Washington D.C., USA, July 2022.*
Title: Inverse Learning to Improve Radiation Therapy Treatment Plans
20. *Production and Operations Management Society (POMS) 32nd Annual POMS-Conference, virtual, May 2022.*
Title: Inverse Learning to Improve Radiation Therapy Treatment Plans
21. *INFORMS Annual Meeting, Anaheim, California, USA, virtual, October 2021.*
Title: Data-driven Inverse Optimization for Radiation Therapy Treatment Planning
22. *Canadian Operations Research Society (CORS), Virtual Presentation, August 2021.*
Title: Inverse Learning: An Inverse Optimization Method for Learning Optimal Decisions
23. *Manufacturing and Service Operations Management (MSOM), Virtual Presentation, June 2021.*
Title: Emulating Human Decision-Making Under Multiple Constraints: The Case of Precision Nutrition
24. *Manufacturing and Service Operations Management (MSOM), Virtual Presentation, June 2021.*
Title: Inverse Learning: An Inverse Optimization Method for Learning Optimal Decisions
25. *ACM CHIL, Virtual Poster Presentation, 2020.*
Title: Emulating Human Decision-Making Under Multiple Constraints
26. *INFORMS Annual Meeting, Virtual Presentation, October 2020.*
Title: Hybrid Inverse Optimization and Machine Learning for Precision Nutrition and Medical Decisions

TEACHING INTERESTS

Prepared to teach at the undergraduate and graduate levels:

- Operations Management (undergraduate core; MBA)
- Supply Chain and Service Operations Management
- Business Analytics and Optimization / Prescriptive Analytics (Python, Gurobi)
- Data Science and Artificial Intelligence for Business (MBA, MS)
- Healthcare Operations and Analytics (elective)

TEACHING and LECTURES Teaching, Towson University

1. **HLTH207: Health System of U.S.**,
Summer 2025, Fall 2025 (2 Sections), Spring 2026 (2 Sections)
Course Evaluations (4 sections, Fall 2025 & Spring 2026):
Enrollment: 118,
Response rate: 83% (98 respondents),
Demonstrated knowledge of subject matter: 4.4/5.0,
Created a positive learning environment: 4.6/5.0.
2. **HCMN435: Health Information Management**,
Spring 2026
Course Evaluation:
Enrollment: 32,
Response rate: 93.75% (30 respondents),
Demonstrated knowledge of subject matter: 4.5/5.0,
Created a positive learning environment: 4.6/5.0.
3. **Healthcare Operations Analytics (Proposed CURE Course)**,
Developed a Course-based Undergraduate Research Experience (CURE) integrating AI and optimization methods into undergraduate curricula.

Student Mentorship, Towson University

- **Summer Undergraduate Research Institute (SURI)**, Summer 2026
Mentored an undergraduate researcher on the development and validation of AI-augmented public health data systems.

Teaching, Johns Hopkins University

1. **EN.500.111: Hopkins Engineering Applications & Research Tutorials (HEART): Healthcare System Engineering**,
Fall 2023
Course Evaluation:
Enrollment: 10,
Overall course quality: 4.75/5.0,
Overall instructor evaluation: 5.00/5.0.

Teaching Assistant, Johns Hopkins University

1. **BU.920.624: Data Science: Artificial Intelligence (3 Semesters)**,
Fall 2021, Fall 2022, Fall 2023
Instructor: Prof. Tinglong Dai, Carey Business School
 - Supported MBA and MS students in applying AI/ML to business problems
 - Developed case studies on healthcare analytics applications
2. **EN.560.250: Introduction to Mathematical Decision Making**,
Spring 2022

Instructor: Prof. Kimia Ghobadi, Department of Civil and Systems Engineering

3. **EN.560.650: Operations Research,**
Spring 2021

Instructor: Prof. Kimia Ghobadi, Department of Civil and Systems Engineering

Guest Lectures, Johns Hopkins University

1. **EN.560.650: Operations Research,**
Fall 2025, Fall 2024, Fall 2023

Guest lectures on computer solutions to optimization problems, focus on Gurobi.
Instructor: Prof. Kimia Ghobadi, Department of Civil and Systems Engineering

2. **EN.560.250: Introduction to Mathematical Decision Making,**
Spring 2022

Guest lectures on computer solutions to optimization problems. *Instructor: Prof. Kimia Ghobadi, Department of Civil and Systems Engineering*

3. **EN.560.100: Civilization Engineered (2 Semesters),**
Fall 2020, Fall 2021

Guest lecture on healthcare operations in civil engineering
Instructor: Rachel Sangree, Department of Civil and Systems Engineering

Teaching Assistant, Sharif University of Technology

1. **Pavement Design and Lab. (5 Semesters),**
Fall 2015, Spring 2016, Fall 2016, Spring 2017, Fall 2017

Instructor: Prof. Nader Tabatabaee, CE Department *Instructor: Prof. Ehsan Haghighat Kharrazi, Department of Civil Engineering (Fall 2016)*

2. **Structural Analysis 2 (2 Semesters),**
Fall 2015, Spring 2016

Instructor: Prof. Kiarash Mohtasham Dolatshahi, Department of Civil Engineering

**SERVICE and
NOTABLE
PROJECTS**

Professional Service

- Panelist, Second-Year Faculty Panel: “Lessons Learned from First Year at TU,” New Faculty Institute, *Towson University*, August 2026
- Program Committee Member (Reviewer), *NeurIPS 2026 Second Workshop on MLxOR*, 2026
- Peer Reviewer, *PLOS Global Public Health*, 2024, 2025, 2026
- President, *Johns Hopkins University INFORMS Student Chapter*, 2022 - 2024
- Editorial Board Member, *ORMS Tomorrow*, 2022 - 2024

Professional Affiliations and Memberships

- Institute for Operations Research and the Management Sciences (INFORMS), 2019 - present
- Manufacturing and Service Operations Management Society (MSOM), 2019 - present
- Health Applications Society (HAS), 2019 - present
- American Association of Physicists in Medicine (AAPM), 2022 - present
- Society for Industrial and Applied Mathematics (SIAM), 2022 - present

- Canadian Operations Research Society (CORS), 2020 - 2022
- Johns Hopkins University INFORMS Student Chapter, 2022 - 2025

Notable Projects and Experiences

- Data collection, maintenance and monitoring for [the U.S. Measles Tracker by the Center for Systems Science and Engineering \(CSSE\)](#) at Johns Hopkins University, 2025
Developed and maintain a comprehensive county-level measles tracking system providing real-time epidemiological data and visualizations. The tracker serves as a critical public health resource during the ongoing measles outbreak, featured in JAMA and covered by major media outlets including CIDRAP, HuffPost, and public health podcasts.
- Data maintenance and monitoring for [the COVID-19 Dashboard by the Center for Systems Science and Engineering \(CSSE\)](#) at Johns Hopkins University, 2020
Early role in maintaining U.S. county and state level data in a timely and accurate manner, working simultaneously with different state level health organizations. Named one of [TIME's 100 Best Inventions of 2020](#).

SELECTED MEDIA COVERAGE
